PUBLIC &

WEEKLY REPUBLICAN-1887. BAILY PUBLIC LEDGER-1892.

MAYSVILLE, KY., TUESDAY, MARCH 28, 1905.

ONE COPY-ONE CENT.

IT'S UP TO YOU, MY SON Shere are two little traits in life, my boy; One leads to height of fame. To honor, glory, peace and joy, And one to depths of shame; And you can reach that glorious height In honors can be won-Or you can grope in shame's dark night-

It's up to you, my son. One trail is strewn with labor's flowers. With sharp thorns here and there; One leads through wicked pleasure bowers That to the eye are fair. One trail ascends, and day by day

You climb-you cannot run-And one is down hill all the way-It's up to you, my son.

Stern duty guards the upper trail, Exacts obedience, too, And he who treads it cannot fail To win, if he be true; But fickle folly, gay with smiles Rules o'er the other one, And leads to ruin with her wiles-It's up to you, my son.

At end of one long trail you'll find That all the tears and moans nd palling cares you left behind Were needed stepping stones. And at the other's end you'll see Your pleasures, one by one. But led you on to misery-It's up to you, my son.

At partings of the trails you stand, At early manhood's gate-Your future lies in your own hand-Will it be low or great? If now you choose the trail of Right

When you the height have won, You'll bask in Honor's fadeless light-It's up to you, my son

Champion Liniment For Rheumatism. Charles Drake, a Mail Carrier at Chapinville. Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy, and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One being accompanied here by his five children and application gives prompt relief, and its continued use for a short time will produce a permanent cure. For sale by all Druggists.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of tes-

LITTLE GIRL

Sleepless Nights for Mother and Awful Suffering of Child.

CURED BY CUTICURA

Had Given up All Hope of Ever Making Any Cure.

Mrs. I. B. Jones, Addington, Ind. T., writes: "My little girl had been suffering for two years from eczema, and during that time I could not get a night's sleep, as her ailment was very severe. I had tried so many remedies and spent so much money, deriving no benefit, I had given up all hope of making any cure. As a last resort I was persuaded to try Cuticura, and to my great delight a marked change was manifested from the first application. I gave the child a bath with Cuticura Soap, using a soft piece of muslin cloth. This I did twice a day, each time following with Cuticura Ointment, and at the same time gave the Resolvent, according to directions. One box of Ointment and two bottles of the Resolvent, together with the Soap, effected a permanent cure. I submit this for publication, hoping it will assist other sufferers in curing themselves."

COMPLETE TREATMENT

Consisting of Cuticura Soap Ointment and Pills.

The first step in the treatment of chronic Eczema is to remove the scales and crusts and soften the skin, by warm baths with Cuticura Soap. Dry carefully and apply Cuticura Ointment, lightly at first, and where advisable spread it on pieces of soft cloth and bind in place. Take the Resolvent Pills, or liquid, in medium doses. Do not use cold water in bathing, and avoid cold, raw winds.

Uncle Sam's Senate

Senatorial Society For the Suppression of Practical Americanism

Walter Wellman, in a Washington telegram to The Chicago Record-Herald, says:

How to deal with Castro, the jack-in-the-box dictator of Venezuela, who has bobbed up again, is a serious problem with the American Two men were killed and another was injured | Government and also with the Governments of France and Italy. It is a much more serious conundrum at Washington than it is at Paris Mexico's new monetary system will go into and Rome, because the foreign Governments have a free hand to do as they please, while the Administration here is compelled to ask the permission of one or both Houses of Congress before it can do anything beyond putting up a

> France and Italy, who are eager to protect the rights of their citizens in Venezuela, ruthlessly assailed by this free-booter dictator, have intimated that they would like the United

States Government to represent them in administering some sort of discipline to the jackin-the-box. But President Roosevelt is not likely to accept this responsibility, because he is much puzzled to know what to do to protect the interests of our own citizens, let alone taking up the cudgel for other Governments.

The President is greatly hampered by the restrictions seemingly placed upon him by the Congress during the recent session as well as the Constitution of the United States. For example, he cannot seize a Venezuelan Customhouse, even as Trustee of by agreement with the Venezuelan Government, if such an arthe Senate. To seize a Customhouse by force would be tantamount to making war, and the President may not make war without the authorization of Congress.

WE CANNOT TURN A WHEEL.

If Castro is smart enough to refuse arbitration and to refuse to do justice to the American interests involved it is difficult to see what action the Administration can take to bring him to terms. The President can send warships to Venezuelan waters, but what are they to do after they get there? To establish a blockade by force is to make war. To land marines to restore the asphalt company's property to its rightful owners, the American stockholders, is to make war.

To seize Venezuelan territory or property in reprisal is to make war. So if Castro has his nerve with him, if he understands the peculiarities of the American administrative system, if he simply stands pat and refuses to get scared when Mr. Roosevelt's warships arrive off his coast and parade up and down in all their formidable array of frowning guns and steam launches, loaded to the gunwales with sassy marines, he is master of the situation. The President may put up a bluff. If Castro calls it he wins.

President Roosevelt is still looked upon abroad as the policeman of this hemisphere. He may be seen walking up and down his beat swinging his big stick, but if Castro has not lost all his cunning in running amuck he must know that the policeman is nothing to be afraid of. He dare not make an arrest, nor use his club, nor seize a malefactor by the scruff of the neck, for fear that he will be called to account by the Senatorial society for the suppression of practical Americanism.

"No North-No South"

But This Sounds Almost Joo Good to Be True

Cincinnati Commercial Tribune.

"In the latter part of April, at Louisville, there will occur a meeting of the Bishops of the Methodist Episcopal Church and the Methodist Church, South, that will be epochal in its Republic."

"The meeting will be for the purpose of bringing together the two Churches which have been separated ever since the war, and which have had no official communication since the unhappy event, with one exception, namely in 1886."

These remarks were made yesterday afternoon by the Rev. C. W. Blodgett, Pastor of the St. Paul Methodist Church, and who attended last Friday a banquet in Louisville at which formal recognition of the approaching meeting was taken.

PLAN BEING FORMULATED.

"The chief obstacle in the way of a consolidation of the two great branches of Methodism is the large number of colored people in the Northern Church, but a plan is now being formulated by Dr. Gaucher of Baltimore, whereby the colored members of both Churches will be formed into a separate body, to which the other will extend aid in all ways possible, especially in educational ventures," continued

"And the day is not far distant when these

It can be done Doan's Kidney Pills make lasting cures. Experiences of Maysville people prove this. Here's one Maysville case of it.

Mrs. Lizzie Bridges, wife of Elmer Bridges, of 206 West Third street, Maysville, Ky., says: "In March, 1900, I gave a testimenial praisng and recommending Doan's Kidney Pills and in it I told how I learned the great value of this remedy. I had been troubled with a bad back and weak kidneys from girlhood, and in my efforts to find a cure I tried every medicine I could find but without benefit until I began using Doan's Kidney Pills, procured at J. Jas. Wood & Son's Drugstore. They proved just the remedy I needed, went right to the cause of the trouble and as a result brought relief great bodies will be united into one organized that led me to testify in their favor. I have never been without Doan's Kidney Pills in the house since. Every spring I take a box whether symptoms of kidney trouble are apparent or not, and in this way keep the kidneys in good condition and guard against attacks of my old

The towboat Clyde figured in a serious accident at Benwood, near Wheeling, W. Va., Sunday, and narrowly escaped destruction. She was upbound with empties when a steam pipe burst, and the steamer and tow of eight barges became unmanageable and swung helplessly broadside downstream toward the Baltimore and Ohio Bridge. The ferry boat went to the Clyde's assistance, and after a hard struggle the steamer and tow were gotten to the West Virginia shore, with one barge in a sinking condition.

Nearly 1,400,000 bushels of coal started South Sunday, 28 boats, 36 barges and 16 flats being locked through Davis Island Dam. With this shipment the total amount gotten out is over 5,000,000 bushels, and if some of the large towboats arrive in time to take advantage of the water a number of big tows will get away.

"There Isn't One Really Good Printer in Five **H**undred.'

Printers' Ink—the leading journal on publicity of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are pretty careful not to let a bum job get onto our presses. No press in the country can better our printing and we want you to know it.
